NETWORK OF INNOVATORS

networkofinnovators.org

Network of Innovators (NoI) is a skill sharing network enabling government and civic innovators to assess their problem-solving skills and get matched to those with complementary knowledge for mutual learning.

NoI is premised on the belief that traditional titles and academic credentials do not adequately convey the skills and experiences people have and would willingly share. By promoting the exchange of knowledge about more agile, data-driven, open and collaborative approaches to working, NoI aims to enhance how we govern and solve public problems.

Designed by the GovLab in partnership with innovators across eight countries, NoI makes it possible to:

- **Track the skills** I have and those I want to learn
- **Visualize my innovation skills** and compare to those of others
- **Get matched** to those who have the knowledge I want
- **Search for collaborators** with specific skills
- **Showcase** those **areas of expertise** I want to share

WHY SIGN UP FOR NOI?

To get practical help and advice applying innovative ways of working to my job

**To find collaborators within and across countries working on similar questions**

To act as a resource to colleagues seeking knowledge about what I know best

To demonstrate and compare my expertise to others in the field

WHAT PROBLEM SOLVING SKILLS DOES NOI MEASURE?

AGILE DEVELOPMENT *Soon*	**CITIZEN SCIENCE**	**COMMUNITY ENGAGEMENT**
CROWDSOURCING	**DATA SCIENCE**	**HUMAN-CENTERED DESIGN** *Soon*
LAB DESIGN	**NUDGES: BEHAVIORAL INSIGHTS** *Soon*	**NUDGES: RANDOMIZED CONTROL TRIALS**
OPEN DATA	**PAY-FOR-SUCCESS** *Soon*	**PRIZES**
	PUBLIC-PRIVATE PARTNERSHIPS	

WANT TO BECOME AN NOI PARTNER?

Agencies and governments can sign up to become NoI Partners. Partners join the Steering Committee, which drives the design decisions for future versions of NoI. Partners also receive a custom-branded homepage and URL for their NoI gateway, matching their own look-and-feel. Partners also receive access to forthcoming features, including:

- Advanced privacy settings, enabling the experience to be customized for those in your organization while still being able to search the whole network

- Expanded personal profiles so members of your organization can showcase their projects

- Integration of those communication tools your team already uses to collaborate

- Ability to visualize and compare the innovation skills of those within your organization

- Comparative analytics for assessing how different groups compare

- Monitoring where people need and want training

- Tracking skill development over time

GOVLAB

The **GovLab's mission is to improve people's lives by changing the way we govern**. Our goal is to strengthen the ability of institutions – including but not limited to governments – and people to **work more openly, collaboratively, effectively and legitimately to make better decisions and solve public problems**. We believe that increased availability and use of data, new ways to leverage the capacity, intelligence, and expertise of people in the problem-solving process, combined with new advances in technology and science can transform governance. We approach each challenge and opportunity in an interdisciplinary, collaborative way, irrespective of the problem, sector, geography and level of government.
